Product Info¹⁹⁰

The REM Difference.

REM manufactures your salon equipment in our 70,000 sq. ft. factory in Lancashire, UK.

Our skilled craftsmen have many years of experience in making quality salon furniture. And REM has invested heavily in the latest, state-of-the-art machinery in order to produce the highest quality product.

All of this makes a difference – The REM Difference.

It means we are able to supply your salon furniture quickly, efficiently and built to your very own requirements. Because when you run your own salon business a standard off the peg product isn't good enough.

So go ahead, choose your style, choose your colour, choose your options and REM will build your dream salon.

Environmental Protection - Disposal of Your Old Appliance
 The crossed-out wheeled bin symbol which you will find on the 'Rating Plate' attached to your product, or appearing in the Assembly/Operating Instructions, signifies an obligation by the purchaser

or owner, to dispose of the equipment in accordance with the European Directive 2002/96/EC. This is a statutory instrument commonly known as the 'WEEE Regulations', which effectively requires you to carry out disposals of all Electrical and Electronic Equipment separately from

your usual waste facilities. Specialist waste controls, designated by the Government (or Local Authorities) are to be made available to prevent potentially harmful substances affecting the environment and causing a possible human and animal health risk. More

information is available from your local Environmental Health Office, Local Authority Waste Disposal Service, or the sales point from which the product was originally purchased.
 REM WEE Registration Number: WEE/BJ0066TW.

REM's talented salon designers use industry leading CAD software combined with their long experience of salons to produce your ideal salon.

To start out on your ideal salon journey call REM to arrange a site visit. Our experienced consultant will discuss your requirements and carry out a detailed site survey from which our design team will generate a 2D floor plan and a 3D view so you can see your perfect salon before you commit.

For more info on REM Studio please contact your local REM Distributor or Telephone +44 (0)1282 619977 sales@rem.co.uk

REM Fit

From Plan to
Reality.

RemFit is led by a manager and a team of specialist joiners and fitters. Scaled drawings are prepared for the client. A site visit is made to assess the area to be fitted, and a report is taken of all the services on site to ensure that water, waste and electrical connections are suitable. A quote is then provided for all work undertaken.

RemFit coordinate delivery of furniture and fittings with REM and any other suppliers. All staff working on site will have undertaken appropriate health and safety training and are experienced in working with other on-site contractors. RemFit can manage complete fitting and installation projects working with flooring, electrical and construction contractors.

Our aim is to take the worry and stress out of your project and hand over a completed, fully functioning salon – on time and on budget.

REM Bespoke

Made to measure
the way you see it.

You've looked through the catalogue and seen our extensive standard product range, but you have something slightly different in mind?

Because we have a complete manufacturing facility together with our own in-house Design Department we are able to respond to the salon that wants something different or specific to their premises layout.

REM's Bespoke Service can be accessed through any REM Distributor nationwide, and can include a salon visit by an REM Salon Specialist followed by detailed plans and, if required, 3D visuals before the salon commits.

REM Commitment

REM has made every effort to ensure that the products presented in this catalogue are as the original. To provide the highest levels of product quality, we may from time to time alter the material specification of our products, any such change will not significantly alter the look or functionality. Dimensions quoted are accurate. However if size is crucial, especially on larger pieces you need to fit in particular spaces, please ensure that you obtain precise measurements and discuss any queries with our technical staff. All products are subject to availability.
